

# System Analysis 1 Project

## Rules

- 1) Grades:
  - Data Flow Diagrams - Level Zero (Context diagram) & Level One ONLY (**5 points**)
  - Decision Tables – Full Table & Simplified Table (**5 points**)
  - Use Case Diagrams (**5 points**)
  - Frontend (**5 points**)
  - Backend (**2 bonus points**)
- 2) All the team members must participate in all the required diagrams and in the frontend as well.
- 3) You can choose any idea and technology to implement the project. But keep in mind the front end must be dynamic and include forms, lists, cards, and many pages (You can use a template).
- 4) You must attend the project discussion on time, because if you come one minute late you **will lose 5 points**.
- 5) You don't have to print the diagrams; you can explain everything on your laptop.
- 6) DON'T FORGET TO PRINT THE COVER SHEET AND FILL YOUR NAMES AND IDs BEFORE THE DISCUSSION.
